Per-Gym Monthly Running Cost (Post-Launch Infrastructure)

After the platform goes live, each gym client (tenant) onboarded onto the Super Admin SaaS dashboard requires ongoing third-party API and infrastructure costs to keep all features running smoothly (notifications, storage, video calls, hosting, support).

Service	Usage	Monthly Cost (Rs.)
SMS / OTP Gateway	Member OTP login, alerts (~250/month)	Rs. 60
Cloud Storage & Database	Firebase Storage + Firestore — photos, diet PDFs, chat sync	Rs. 70
Push Notifications	FCM + WhatsApp notification delivery	Rs. 30
Server / Hosting (per gym share)	VPS allocation, backups, uptime monitoring	Rs. 110
Video Calling (Trainer/Dietitian)	Agora.io — live consultation calls	Rs. 50
Email Service	Invoices, welcome emails, reports delivery	Rs. 20
Maps & Location Services	Gym location, nearby search	Rs. 20
Maintenance & Support	Server monitoring, bug fixes, uptime support	Rs. 40
TOTAL PER GYM / MONTH		Rs. 400

Note: This monthly cost covers all third-party APIs, server allocation, and platform maintenance for each gym tenant. As detailed in Terms & Conditions, server hosting and 3rd-party API charges are billed separately from the one-time development cost.

Suggested Gym Subscription Pricing (Client's Revenue Model)

If the client (Super Admin / platform owner) wishes to onboard multiple gyms and charge them a monthly subscription, here is a suggested 3-tier pricing structure with profit margin per gym:

Package	Monthly Price (Rs.)	Cost/Gym (Rs.)	Profit/Gym (Rs.)	Margin
Starter	Rs. 999	Rs. 400	Rs. 599	60%
Professional	Rs. 2,499	Rs. 400	Rs. 2,099	84%
Enterprise	Rs. 4,999	Rs. 400	Rs. 4,599	92%

★ These are suggested starting prices — client can adjust based on local market and target gym segment. Even at the Starter tier, healthy margin is maintained after deducting running costs.
